PROGRAM

The Fourth

International
Pinot Noir
Celebration

McMinnville, Oregon

Welcome

Welcome to the International Pinot Noir Celebration! Welcome to a weekend of international friendship, food, wine, and fun. In what has become an annual event, winemakers and wine lovers from around the world gather to celebrate this controversial, difficult, elusive, and wonderful gift of nature — Pinot Noir.

One of the world's oldest known grape varieties, Pinot noir is an extremely difficult variety to grow. There are only a few regions in the world where it can be grown successfully. In the winery, too, it must be treated with great care, respect, and dedication by those who guide the transformation of grapes to wine.

The producers of Pinot noir who have come here for this Celebration epitomize that dedication and represent some of the best vineyards and wineries of Europe, Australia, and the U.S. They have brought examples of their wines to taste, explore, and enjoy. The climates and soils of all these regions are as distinctive as the winemakers themselves, and their wines will reflect these differences.

We gather this weekend not in competition, but in the spirit of friendship and the mutual pursuit of Pinot noir — in all its grand diversity!

EUROPE

FRANCE

DOMAINE ALAIN BURGNET

21220 Gevrey-Chambertin, France

Represented by Alain Burgnet

Featured Wine: Gevrey-Chambertin 1988

Alain created his domaine on his own in 1974, after having worked for his father up to then. His domaine consists of 11 acres in the village appellation of Gevrey-Chambertin. The average age of his vines is 50 years and he calls the wine "Cuvee Vieilles Vignes." Burgnet's vinification techniques are traditional — the grapes are fermented in open tanks for about 15 days; the wine is aged in small oak barrels (less than 5% new); and the bottling takes place after the malolactic fermentation, usually in November of the year following harvest.

MAISON JOSEPH DROUHIN

7, Rue d'Enfer, 21200 Beaune, France

Represented by Robert and Francoise Drouhin

Featured Wine: Chambolle Musigny Les Baudes 1987

Among the largest of Burgundy's negociants, Maison Joseph Drouhin is also one of its largest

landowners with over 60 acres in the Cote d'Or and 90 in Chablis. From these sources as many as 85 distinctive offerings may be produced in a vintage, including many Grand Cru and Premier Cru wines from both the Cote de Nuits and the Cote de Beaune. Robert Drouhin is the grandson of the founder while his daughter, Veronique, the winemaker of Domaine Drouhin Oregon, represents the fourth generation of the family in the firm.

DOMAINE RENE ENGEL

21700 Vosne-Romanee, France

Represented by: Philippe Engel

Featured Wine: Echezeaux 1987

The origin of the Engel domaine goes back to 1910, when it was created by Rene Engel, then Professor of Enology at the Dijon Faculte des Science. Philippe, grandson of Rene, took control of the Domaine in 1981 after the untimely death of his father. There are 17 acres of vineyards in the following appellations: Vosne-Romanee, Vosne-Romanee ire Cru "Cru Les Brulees", Echezeaux, Grands Echezeaux, and Clos de Vougeot. Philippe uses both closed and open fermenters and 30% of his wines are aged in new oak barrels.

DOMAINE MICHEL JUILLOT

71640 Mercurey, France

Represented by: Laurent Juillot

Featured Wine: Mercurey Clos des Barraults 1988

Today the domaine of Michel Juillot farms over 69 acres of vineyards in several villages of the Cote Chalonnaise as well as small holdings in Corton-Charlemagne and Corton-Perrieres. Planted over 85% to Pinot noir, the domaine has quadrupled in size over the last 20 years. Two new vineyards have been established — one in Givry which is 95% Pinot noir, another in Montagny for Chardonnay. Laurent Juillot's family have been vigneronns since 1404. Laurent is especially interested in practical research, including comparisons of various types of oak.

MOMMESSIN

La Grange St. Pierre

B.P. 504, 71009 Macon, France

Represented by: Didier Mommessin

Featured Wine: Clos de Tart 1988

The firm Mommessin is a very important vineyard owner and negociant in the wines of the Maconnais and Beaujolais, as well as the Cote d'Or. The company is best known as the sole owner of the Clos de Tart, a grand cru vineyard in Morey-St-Denis. Clos de Tart was founded in 1141 by the sisters of Notre Dame de Tart and is the only walled vineyard in Burgundy never to have been divided. That the press house, fermenters, and cellars are all still contained within the walls of the vineyard is also extremely rare in Burgundy today.

DOMAINE DE LA POUSSE D'OR

21190 Volnay, France

Represented by: Gerard and Francoise Potel

Featured Wine: Volnay Clos de la Bousse d'Or
1987

At the time of the French Revolution, this domaine was part of the Domaine de la Romanee Conti, but was separated by the People's Commissary in Dijon which took the vineyards (and lives) of the most important land holders. A syndicate, put together by the late Jean Ferte, a noted gastronome, purchased the domaine in 1964. It has been run since then by Gerard Potel, an enologist and agricultural engineer. The domaine consists of 32 acres in seven ire Cru vineyards in Volnay and Pomard, including Clos de la Bousse d'Or, for which the domaine is named.

DOMAINE DANIEL RION ET FILS

21000 Nuits St. George, France

Represented by: Patrice Rion

Featured Wine: Nuits St. Georges, Clos des
Argillieres 1987

The formal founding of this domaine in 1977 brought together vineyards in Premeaux and Vosne-Romanee that had been in the family for

4 generations. There are 37 acres in all and 95% of Rion wines are red. Patrice Rion took over full responsibility for the vinification in 1978. His wines tend to emphasize fruit rather than tannin, accomplished in part by not using too much new oak.

TAITTINGER

51100 Reims, France

Among the oldest houses in Champagne, Taittinger is still owned primarily by the Taittinger family, although it is listed on the Paris Stock Exchange. Taittinger has large vineyard holdings in 30 different growths. Their wines are usually 60% Pinot noir and Pinot meunier, and 40% Chardonnay.

Represented by: Olivier Merlin

Featured Wine: Bourgogne Rouge 1988

La Roche Vineuse is a magnificent village in the region near Macon, in the southern part of Burgundy. Olivier Merlin, after having worked in California, purchased the domaine in 1987. He has received critical acclaim for his wines by lowering the yields of his vines, using more new oak, and bottling with little or no filtration. The domaine was founded in 1680 and today consists of 14 acres in the appellations Macon La Roche Vineuse and Bourgogne. One of the earlier proprietors of the domaine was the first to plant Pinot noir in the Maconnais region.

COMPAGNIE DES VINS D'AUTREFOIS

21220 Beaune, France

Represented by: Jean-Yves Devevey

Featured Wine: Domaine du Chateau de
Premeaux, Nuits St. Georges, 1987

This negociant business, created in 1981, has none of its own vineyards. Instead, it buys

young wines in barrel which are then aged in the cellar of the producer but under the control of the negociant. The wines are estate bottled on the property of the producer and are sold under the name of the producer and the negociant. The aim of this unusual business, as its name implies, is to create old style Burgundy wines by combining the vineyard resources of several small land owners with the winemaking and marketing skills of a modern company.

THANK YOU

Notes

The International Pinot Noir Celebration is a unique event in that we are not dependent on any publication, marketing firm, or outside organization for funding or support. We are an independent group of high-spirited individuals who volunteer their time to produce a great event in which to share Pinot noir with our friends.

We could not do it without the help of a great many people who have contributed their time and expertise. We greatly appreciate the support of Linfield College and the McMinnville community. In addition to the people who have already been named in this program, we want to extend special heartfelt thanks to the following people who have made significant contributions.
