Jennifer Butcher earns bronze medal in swimming at Paralympic

Jennifer (Snook) Butcher '95

Two weeks after the 2004 Olympic Games ended in Athens, Jennifer (Snook) Butcher '95 won a bronze medal in the 100-meter backstroke. She was competing against other swimmers with visual impairments in the Paralympics, held every four years shortly after the Olympic Games in the same venue.

It was her final race, said Butcher, 32. "I knew it was my last race," she said, adding that she's been in the water only twice since then. "I still love swimming, but I know I've done all I can do."

All she can do includes setting records in the 50-yard backstroke, 200-yard medley and 200-yard relays at Linfield, where she received a degree in health education. The sport has been her guiding passion over the years. "My life revolved around swimming," she said. That was a major reason the native of Issaquah, Wash., chose Linfield. And the swim team competed in the NAIA National Championships all four years she was on it. All four years, she finished second in the 100-meter backstroke.

Butcher had intended to major in nursing until she realized the nursing program was in Portland, not on the main campus. "I made the choice to stay with swimming," she said, adding that it was a satisfying decision. "I knew I wanted to do something in the health field." She continued her education at Portland State University, earning an M.S. in special education in 1999.

Her vision had begun to deteriorate in elementary school but worsened dramatically during college. When she was a sophomore, she was diagnosed with Stargardt's disease, which affects the macula and retina. That was 1993, the year her blurry vision reached the legally blind stage.

Butcher said her sight has stabilized in recent years. She has lost her central, or detailed, vision and can read only with a magnifying glass or with large fonts on a computer screen. Her inability to decipher the numbers has led to her boarding the wrong bus, which she relies on for transportation since she can no longer drive.

Butcher and husband, Bryan, who was her swim coach, live in Vancouver, Wash., where she teaches health and fitness at the Washington School for the Blind. Butcher now works with students aged 3 to 21 at the school. The emphasis is on workout routines and strength training. And, of course, the swim.

— Beth Rogers Thompson

Shoppe, Concierge Travel Services and Shasta Travel School. She and her family own and operate Cascadia Ranch & Stables, a horse ranch and hay operation.

Mari Sue (McLeod) Johnson '74 of Salem is director of donor relations at Willamette University.

Ryan Adams '00 of Kirkland, Wash., teaches in the Northshore School District. He earned a master's of education from the University of Washington.

Andrea (Thompson) Wedewer '00 of Las Vegas, Nev.,

Phil Renshaw

Phil Renshaw '31, long-time trustee of Linfield and one of the college's most avid supporters, passed away Feb. 22 in Seattle, Wash.

Renshaw was born July 6, 1907, in Fairbanks, Alaska. He came to Linfield at the urging of President Leonard Riley although he interrupted his education for a stint as a hotel night clerk in New York City, finding college too "structured." After returning, he graduated magna cum laude with majors in economics and business administration.

Renshaw was the founder and president of Talley Corporation, which developed systems to manage large quantities of data.

Renshaw was associated with Linfield College for nearly half of its history and knew eight of its 18 presidents. His generosity supported the college through lean times and good times and his wisdom in directing his gifts helped shape the kind of education Linfield offers its students. Renshaw Hall is named in honor of him and his wife Helen (Leach) Renshaw '32 who passed away in 1981. His son, Philip Eugene Renshaw, who passed away in 1982, also attended Linfield for two years. Renshaw Avenue, the street which runs directly in front of Renshaw Hall, was named in Renshaw's honor in 1993. Countless Linfield students have benefited from his generosity through scholarship funds which he established.

Renshaw had served on the Board of Trustees since 1957 and was chair of the board from 1964 to 1971. "He time and again exercised a remarkable ability to guide the college through difficult periods in such a way that it emerged not weakened, but strengthened," said President Vivian A. Bull. He was named Alumnus of the Year in 1970 and received an honorary Doctor of Science degree in 1969.

and her husband, James, had a son, Thomas James, May 17.

Staci Bryson '00 of Centralia, Wash., is working on a master of divinity degree at Princeton Theological Seminary.

Augusta Symonds '00 of Lakewood, Wash., recently returned from Japan where she taught English for two years with the Japan Exchange and Teaching Program.

Tim Redfern '00 of Goffstown, N.H., married Michelle Coulombe Sept. 4.

Tiffany Risser '00 of Portland will complete a master's in music education at Portland State University and begin seminary courses this fall.

Emily Bauer '01 of Newberg is assistant volleyball coach at Linfield.

Brian Claar '01 of Portland married Melissa Markley Aug. 27. He is a commercial loan officer at Bay Bank in Portland.

Kristen Collins '01 of Sherwood married Luke Gehring Oct. 16. She is a student in the Oregon Health & Science University physician assistant program.

Lisa Evans '01 of Las Vegas, Nev., received a master's degree in arts criticism and management from City University, London.

Miriam Krueger '01 of Allston,

Mass., is assistant director of international and multicultural student affairs at Roger Williams University in Bristol, R.I. She received a master's in intercultural relations from Lesley University in May.

Tamara Quandt '01 of Arlington, Va., is pursuing a master's in political management at George Washington University in Washington, D.C.

Heather Bretl '02 of Portland received a master of education leadership degree from the University of Portland in May.

Ryann Bernard '02 of Washington, D.C., earned a J.D. from American University Law School in May.

Michael Keen '02 of Bloomington, Ill., is a corporate billing manager with Country Insurance & Financial Services.

John Paul Bierly '02 of Beaverton is administrator for the Linfield Chamber Orchestra.

Marci Covey '02 of Dallas is enrolled in the dietetics program in the Department of Nutrition and Food Management at Oregon State University. She earned the Kandis McNeal Memorial Scholarship for outstanding scholarship and leadership qualities.

Suzanne Taylor '02 of Albuquerque, N.M., earned a mas-

Open mind, liberal arts education lead Ashenbrenner to law enforcement career

Lila Ashenbrenner '74

Lila Ashenbrenner received her liberal arts degree from Linfield in 1974, a year of economic doldrums. She saw her lack of specialization as a strength, not a weakness: "So many people were graduating and not getting jobs back then. I thought it would be better to be well rounded. And it couldn't have worked out better."

She graduated with no career goals, but with an open mind. After working in a veterinary clinic for several years, she got to know a Washington County sheriff's deputy, who invited her on a ride-along. One thing led to another, and eventually she was working with animals again – on the Hillsboro Police Department's K-9 unit. She was only the second woman hired by the department and at that time the only female K-9 officer in Oregon.

"Talk about a branch not falling far from the tree," she said, laughing at her entrenchment in this corner of

Oregon. "Our mayor right now was my high school student teacher" at Aloha High School.

She may not have ventured far from home, but Ashenbrenner has worked in some exciting areas of law enforcement – narcotics and undercover operations, as well as public information and administration. She has risen steadily through the ranks in nearly 28 years with the department, from patrol to detective, sergeant, lieutenant, captain and commander, culminating in her promotion to Hillsboro's deputy chief in 2003.

Now that she's spending more time at a desk, she said, she misses the immediacy of being on the streets. "You never knew what you were going to be doing next," she said. "And I really enjoyed narcotics. It always felt good to put the bad guys away."

But the work is not always as glamorous and high-tech as it is portrayed on television. "I wish we really had that equipment available," Ashenbrenner said. Her biggest challenge these days is hiring personnel, she said, adding, "We're looking for people who want this as a career, not a job."

– Beth Rogers Thompson

ter's degree in physics from the University of New Mexico in May.

Charlise Mueller '02 of Hillsboro is a behavioral support specialist at Straight Ahead Shelter, a facility for developmentally disabled adolescents in Cornelius.

Jennifer (Rice) Rouse '02 of Brownsville had a daughter, Elizabeth, Aug. 2. She is a reporter for the *Albany Democrat-Herald*.

Melissa Schmeer '04 of McMinnville is the school technician at Newby Elementary School.

Jeni Aaby '04 of Bothell, Wash., is the education writer for *The Enterprise Newspapers*.

Kristin Greig and **Daniel Hayes**, both '04, of Naches, Wash., were married July 10.
