## Wine grape production declines

Oregon's 1998 wine grape crop totaled 14,700 tons, 21 percent less than last year's record crop and 2 percent less than 1996 production. The value of this season's crop totaled \$17.3 million, down 16 percent from 1997, also the record. Harvested area was a record 7,100 acres, up 13 percent from last year's prior high of 6,300 acres. Funding for the 1998 Vineyard Survey was provided by the Oregon Wine Advisory Board.
