## INSIDE LINFIELD MAGAZINE

Laura Davis and I found out just how exhilarating and terrifying it is to be a student when we re-entered the classroom to get an inside view of what happens during January Term. It was exhilarating to sit next to current students and learn from engaging faculty, yet terrifying because the classes are, well, hard. You can read about three of the lively courses in these pages. Also in this issue, we share with you one professor's solar energy research and ideas for energy savings. We introduce you to an alumnus who is putting his liberal arts degree to task in this challenging economy. You will learn about four remarkable alumni and the Linfield mentors who have inspired their success. We hope you will be inspired, as well. Read on for more stories of Linfield.
