## HINSON WITH US AGAIN

### PROMINENT PORTLAND MINISTER SPEAKS IN CHAPEL

The Goodness of God Topic of Several Lectures Given This Year

"The whole life of McMinnville College centers around the Chapel Service," said a speaker at one of our Chapel Services early in the year. Anyone who has been at McMinnville College as a student or as a chapel visitor knows how true this is. Without it our college would not have the charm it has today. Certainly no one of our chapel services is looked forward to more eagerly than the service at which Dr. Hinson speaks to us.

For a number of years Dr. Hinson has come to "Mac" every other Tuesday during the school year to give a chapel message. These Tuesdays have been bright spots in the spiritual life of very many of our college students and we deeply appreciate Dr. Hinson's effort in giving us so much of his time from his busy Portland life. The news that Dr. Hinson could be with us again this year was received very gladly by both old and new students. His first visit was on Tuesday, October the 8th.

Dr. Hinson's second visit for the year was on Tuesday, November 26. The message was suitable to the Thanksgiving season. "The goodness of God leadeth to repentance," was the subject of the address. The cause is a good God, the result repentance on the part of man. A good God cannot be the creation of man. India has 400,000,000 gods made by man. Every one of them is immoral.

A good God is a just God and so, though it may not appear so at the present, the righteous shall receive a just reward and the unrighteous shall receive a just punishment.

"The last time I was here," said Dr. Hinson, "I said that I would rather be shot than to be a party to an unjust peace." But already God has looked thru the clouds and we have peace. He always does in his good time.

Jesus said, "A good man out of the good in his heart does good with his hands." If this is true we can expect a good God to do good things. This does not always seem true. Do I realize all the time that God is good? No but I see enough of God's goodness part of the time to know that he must be good all the time.

The goodness of God leads to repentance. Repentance is a mental revolution which leads to a change of action. There is a tendency on the part of man to blame God when it is man who has sinned. Adam thought it when he said, "The woman that Thou gavest me." All thru the centuries men have been doing the same thing. Remember to think of God as good and that he is not to blame. The

## ASSOCIATED STUDENT BODY ORGANIZES

Gladys Strong Elected President

When the "Old Students" first came into the Chapel for the purpose of registering they were a little surprised to see the A. S. B. Secretary selling tickets (and she was a very good saleswoman) in the place so commonly occupied by the President. No! They were not surprised, for they knew that their President, Mr. Arthur Steele, was in Camp Lewis. But in the absence of the president the vice president should assume the responsibility? Yes that might be so under ordinary circumstances, but in this case our secretary was the only A. S. B. officer back on lhte job.

Then the first thing on the program was to elect a few officers. But before that necessary time could elapse a Lyceum Manager must be chosen to direct Lyceum work for the year.

Eventually Miss Gladys Strong was elected as President, Mrs. Kenyon as Vice-President, Miss Frankie Hornbeck as Yell-Leader, and Halsey Carstens as Editor of the Review.

There is no equal suffrage in Mac this year.

Our A. S. B. will carry on the same activities as in former years.

## IN MEMORIAM

### FORMER STUDENTS PASS AWAY

Four Recent Deaths Are Mourned by a Wide Circle of Friends in McMinnville College

From the time of the entrance of the United States into the world war, the young men of the nation have been eager to enter the service. We are proud of those who have answered the call but we are especially proud of those who have gone from "Old Mac." Not only proud for their readiness to answer the call but for their Christian standards, which they have carried into the training camps and overseas. It is with a deep feeling of regret that we shall not be able to welcome all of them back.

It was on the opening day of College that the news came of the death of Floyd Reavis. He had been in France only a short time when he was stricken with plural pneumonia. Although he had been here only one year, he had made many friends and it was with real sorrow that they received the news of his death. He was unassuming but in his quiet way everyone learned to know that he was a friend worthwhile. His Captain characterized him as one who never complained and was always ready for service.

Paul Hunter was another of whom we are proud. He had joined the Student Army Training Corps in order to better serve his country. Service seemed to be the keynote of his life. He had completed his Sophomore year

Continued on Page 2)

## RETURNED

Cyril F. Richards Takes Professor Van Osdel's Place

The former students of our college are glad to welcome Cyril F. Richards, a member of the class of '18, back into their midst, this time, as a professor. Mr. Richards had arranged to take the principalship of the Lafayette High School but when Professor Van Osdel decided to enter Army Y. M. C. A. work he was selected to take Professor's place, as head of the department of Science.

Profoessor Richards thus has charge of the classes in Chemistry and Physics and also will assist in the Biology department.

Because he has received his training here we feel Mr. Richards is peculiarly capable of handling this work, and while we regret Prof. Van Osdel's going, we rejoice in our good fortune in securing Professor Richards, and we hope he will have no cause to regret his decision to remain among us.

## McMINNVILLE COLLEGE LOSES ANOTHER WARM FRIEND

Mrs. L. C. Elwell Dies at Her Home in Salem on Aug. 13

When on August thirteenth Mrs. L. C. Elwell went away to dwell with her Savior McMinnville College students lost a loyal friend. Though Mrs. Elwell had lived in Salem for the past four years yet she still had found many ways in which to express her devotion to our students. It was at Mrs. Elwell's home in Salem that every student found a generous welcome day or night. Few visited Salem without enjoying her hospitality. Half the joy of the annual "Mac Day" at Salem was the joy of having Mrs. Elwell for hostess. Her delight in the students was so tender, genuine and individual, her thought for the comfort of each was so whole-hearted that all felt at home and many called the gracious hostess by the name she loved best "Mother Elwell."

The Salem church and the Salem young people have suffered an irreparable loss. To Mr. Elwell, to Beth (Mrs. Donald Salter), to Vernon in khaki and to Lee the son at home the Review extends sympathy.

Very many former and present students of McMinnville will deeply appreciate just what her son Vernon meant when he wrote "Mother's presence is still with us for I have felt it ever since I heard that she had gone to her home and even before I heard. I was on the transport and in the danger zone the night of her death. We had sighted a submarine and had been fired on the night before but on the night of the thirteenth I think I was more calm and more ready for anything that might happen than at any other time since I enlisted. I am realizing more and more

## MEMORIAL FOR DR. WOODY

COLLEGE FEELS DEEPLY THE LOSS OF A STRONG FRIEND

Dr. Riley, Dr. Northup, Dr. Varney And Prof. Grover Pay Tribute to a Great Man

The man to whose memory the chapel services, on November 22, were dedicated, Claiborne Alphonso Woody, was fittingly called the "Giant of the West." Born in Brownsville, Linn Co., Oregon on February 8, 1856, he was a true Oregonian and one of whom we are proud. Early in life he consecrated his all to his master and equipped with his remarkable strength and courage, he was able to reach his goal where many another less purposeful would have failed. After availing himself of a public school education he entered our own college, here in McMinnville, later graduating from the University of Oregon, a member of its first graduating class. Later he entered Rochester Theological Seminary receiving the degree of B. D.

But it was while here in McMinnville that those events which were to so influence his after life took place. While a student in our college, Dr. Woody was baptized in Cozine Creek. It is not known whether he was converted while here or not but it was here that he determined to devote his life to his Master. It was while a student here that Dr. Woody met Martha J. Kirby who was his companion during the later years of his training and who was his constant companion and helpmeet throughout his life.

After sketching Dr. Woody's life, Dr. Riley gave a few personal glimpses of and a few tributes to his life. Dr. Riley spoke of his memories of Dr. Woody both as a co-worker and friend. "Cheerful, sympathetic, optimistic, big-bodied, broad-minded, great-hearted scholar, administrator, statesman, friend and brother,—we shall surely miss him and shall not in all probability soon, if ever, see his like again." Dr. Riley quoted from Dr. Petty's "Appreciation" showing how the verse "Know ye not that there is a prince and great man fallen this day in Israel?" and proving Dr. Woody to be a true prince in every sense of the word.

Dean Northup, Professor Varney and Professor Grover all told of the loss they felt in the passing of their friend and how much his life and example had meant to each of them.

For many years Dr. Woody had been a member of the Board of Trustees of our College and his going will take from us a member who had unlimited faith in the work of McMinnville, and who did everything in his power to strengthen and spread its influence thruout the entire West.

## HINSON WITH US AGAIN

(Continued from Page 1)

right attitude is expressed by the man who prays, "Our, Father."

The Kaiser talked as much or more about God than any other man. His god permitted the slaughter of men, the ruin of women and the crucifixion of little children. As the result of belief in such a God the Kaiser was incarnate badness. The result of belief in a good God will be repentance and the amount of repentance will be shown by the amount of change of conduct. The conduct must change for there is nothing so destructive to the soul as emotion without action. Take this thought as an anchorage, GOD IS GOOD.

## A JOYOUS EVENT

"Mac's" Large Family Includes a Great Many Old as Well as a Large Number of New Members

Where can you find a greater joy than in the home-coming of a large family which has been widely scattered for many weeks?

To see the old friends, who come to seem as brothers and sisters, returning and to hear little snatches of their summer's experiences and how eager they were to get back is indeed a joy, and then to see someone suddenly appear whom you hadn't dared hope would come back—why! it's the most exciting time of the whole year!!

And there is the faculty arranged in a circle in the center of the old Chapel—the faculty to whom we owe so much. Each member a warm friend to every student. How glad we are to see them, one and all again. And we miss those who have gone but know that their absence from us is because they have had a greater vision of usefulness, and we welcome the ones who have come to fill their places.

And, the new students! We always watch for them and try quickly to get names and faces correctly adjusted.

This year we expected a deluge of girls and only a smattering of boys and we got it—one hundred to thirty-five. But never mind, our Y. M. and Y. W. joint reception was not so one-

sided after all, which goes to prove that the young men at McMinnville College can be agreeable to more than one girl at a time if necessary.

Now we have the year before us—the most serious year we have ever known and at the same time the greatest in opportunity for service in every way. We are all acquainted—preliminaries are all over and there is now no such thing as a "new" student in school.

Let us go on with the perfect accord and cooperation that should exist in a large family where each member has the same objective—that of becoming the best fitted in every way for the great task in which we shall share after the war.

## THE NESIKA

The cordial welcome given to us new girls by the old students quickly dispersed that peculiar but indescribable feeling of "homesickness." But still there remained a feeling of being and not doing. Here's where the Nesika became busy, and on Friday evening we new girls were invited to the home of the Misses Riley and initiated into its secrets. Needless to say, we spent a very pleasant evening together getting acquainted and listening to Miss Moore's sketch: "The Nesika's Origin and Purpose."

Alma Carsten was elected chairman; Ruth Riley, recorder; Emily Shotwell, secretary and treasurer; Effie Mae Thorp, reporter for the first semester.

Miss Moore had told us that owing to war conditions last semester the Nesika had done away with refreshments, however, disappointment quickly changed to anticipation when the Misses Riley served to us a dainty Hooverized luncheon. At the approved time we departed homeward, feeling that we "The Nesika" had much to do.

Miss Louise Campbell, home on furlough from China, led the student volunteer meeting Sunday, Nov. 17. Those present experienced a great uplift from Miss Campbell's earnest words. Her devotion to the cause of the Master, and her portrayal of the great need of reinforcements in China stirred the hearts of all who heard her.

## FORMER STUDENTS PASS AWAY

(Continued from Page 1)

in McMinnville and during the years that he had spent here, he never failed when any responsibility was placed upon him. His work was always done well and cheerfully. No doubt the secret of his helpfulness and cheerfulness was high Christian ideals.

Emanuel Northup, the son of our dear Dr. Northup, was a victim of the influenza that has swept our country. He was a member of the Student Army Training Corps at Eugene at the time of his death. For several years he had been in McMinnville College, taking his preparatory work here. Perhaps as an inheritance from his father, he had a remarkably clear mind, the ability for logical expression, and a deep sense of justice. He was a most generous and loyal friend. His cheerfulness classed him as one of those who help to make the world happier.

The Alumni and former students of "Mac" have suffered loss in the death of Charles S. Scott of the class of 1915. Charles was another suddenly cut from a strong life and bright future, thorough the plague of influenza. He was in a training camp at Detroit, Mich., and had been recommended to an Officers' Training School at the time of his death. An honor student of the class of 1915, Charles was especially gifted along literary lines. He was one of the markedly successful editors of the College "Review," and conspicuous in all lines of College activities. His was a sincerely earnest Christian life.

We are justly proud of those who have left us and as we try to do our part in the work of making the world better, as they were doing theirs, we shall remember them, and their lives of cheerful helpfulness will be an inspiration to us. If they could speak to us, no doubt their thoughts would be expressed in this little poem:

"Now in the hour that shows the strong—  
The soul no evil powers effray  
Drive straight against embattled Wrong;  
Endure; the end is worth the throe.  
Give, give; and dare, and again dare!  
On, to that Wrong's great overthrow!  
We are with you, of you; we the pain  
and Victory share."

## Vernon Elwell Writes from Quantico, Virginia

The following extract was taken from a letter written a short time ago by Vernon M. Elwell, a former "Mac" student. Many of us may not know Vernon but the fact that he once attended our college will add an interest in itself. But none of us can have failed to know George Stewart of whom he speaks. "Skow" Stewart is one of the most popular men McMinnville College has ever had, and deservedly so.

In speaking of himself Mr. Elwell says: "I have been in a non-commissioned officers training school, at Norfolk but did not stay there long. I qualified as an expert rifleman in Cuba, and I guess that we were needed more for other work than we were for corporals and sergeants. All of the experts were picked out of the school at Norfolk and sent up here to Quantico to take a course as scout-snipers. It is very interesting work and I believe I would rather do it than to be even a commissioned officer."

I have finished the course now. Took the final "exams" last Friday and feel pretty sure that I passed all right.

We will find out tomorrow what grades we made and then I expect to be transferred to an overseas regiment and to go across very soon. I wanted to go home on a short furlough before going across but don't think it will be possible.

I had a wonderful visit with George Stewart a week ago Saturday. We are quarantined here for Spanish influenza, so I couldn't go any place with him, but he came up and we had a good time even if it was short.

He is still the same thoughtful and lovable fellow that we knew at "Mac," only perhaps a little more so, an ideal soldier and a Christian gentleman thru. He certainly is a friend to be proud of.

George told me that he expected his commission as a 1st lieutenant soon, and he has been recommended for a captaincy, so he will be a captain in charge of a company, when he goes across. I envy the fellows who will be in his company."

Many may be interested to know that, since the writing of this letter, George Stewart has received his commission as a 1st lieutenant and that Vernon Elwell is now overseas.

## CONQUEST NOTES

On Oct. 6, our first Sunday with the new students, found the Executive Board assembled at 9:30, each member enthusiastic and eager that the Conquest year be started well. There we transacted the business of the class, discussed the plans, and closed by a prayer from each one. This program, it might be said, is followed at each meeting.

Professor Gardiner taught the class that day and it was an expectant and attentive crowd of ninety members who listened. His lesson on the calling of Abram from Ur of the Chaldees and its application to our lives in that God always calls to a better life appealed to each one.

The following Sunday we had the lesson of the separation of Abram and Lot and the latter's turning his face toward Sodom. The unselfishness in Abram portrayed here was impressed upon us. The closing thought Professor left with us was the danger of going toward Sodom. If we would keep out of Sodom "abstain from every appearance of evil."

On account of the appearance of Mr. Fluenza about that time we were unable to hold sessions for four Sundays. The work of the class went on, however, in a few respects. Flowers were sent to the sick and calls made.

Prof. Gardiner has taught the class from the beginning of the new school year and will continue to teach until election of new officers.

As for the official election of officers, the cabinet is working as fast as it can for the preparation of an evening devoted to this. Due to the influenza epidemic we could not have the banquet, or whatever it is to be this year, in the month of November. It will come soon, however, and will be announced in time that those who are not in Mac at the present and wish to come, may do so. We hope Prof. Van Osdel can be with us.

The Cabinet is rejoicing that the class has made so promising a start. The students coming here for the first time have entered heartily into the work and are daily proving themselves the real "Conquest" type.

## MRS. ELWELL DIES ON AUG. 13TH

(Continued from Page 1)

what a mother mine was—her influence will be a help and a strength to me always."

The following poem found in her desk, after she had gone, expresses well the spirit of this beautiful Christian:

### OTHERS

Lord help me live from day to day  
In such a self-forgetful way  
That even when I kneel to pray  
My prayer shall be for others.

Help me in all the work I do  
To ever be sincere and true  
And know that all I'd do for You  
Must needs be done for others.

Let "Self" be crucified and slain  
And buried deep, and all in vain  
May efforts be to rise again  
Unless to live for others.

And when my work on earth is done  
And my new work in heaven begun  
May I forget the crown I've won  
While thinking still of others.

### FRESHMEN LACKING IN PEP?

You wouldn't have thought so if you could have attended the Freshman class meeting October seventh, it was so exciting and full of interest! We had to vote three times to determine who should be our leader during our verdant Freshman days. Linna Vaile was elected. This election took so much time that a second meeting had to be called a few days later and Mark Rich was elected Vice-President, Mary Ballard, Secretary-Treasurer, and Dorothy Smith, representative to the Executive Board. We are very proud of our class of thirty-nine and, also, let me whisper in your ear, that we have more boys than any other class in school. We are looking forward to many jolly good times during the year.

### PREPARATORY

Upon the urgent request of the acting chairman, Mary Stewart, that all classes, at the earliest possible opportunity, meet and elect such officers as were immediately necessary, the Preparatory Department held a brief meeting after Chapel, Oct. 7th. Wakefield Fletcher was elected President and Whitford Hall as Representative to the Executive Board.

### SOPHOMORE

The Sophomore Class met in the second week of the semester to elect officers for the coming year. We have fourteen members this year. This is considerably less than the numbers who entered "Mac" as Freshmen last year, but twelve of the fellows who were in our class last year are in the service or in the S. A. T. C. at various colleges. We are now able to look forward when many of these fellows will be able to be back with us.

The class was grieved to learn of the death of Floyd Reavis in France. He was one of the most faithful of the Freshmen and it is with pride that we learn that he exhibited the same fidelity and enthusiasm in his army life as he did in school affairs.

The following officers were elected for the year: President, Grace Rhine; vice-president, Jessie Young; secretary, Avard Whitman; executive representative, Zella Whitman.

## "Mother" Potter Leads Chapel

One of the first Patriotic Chapel Services of the year was enjoyed on Monday, Nov. 25, at which time "Mother" Potter presented the "Girls Glee Club." However, this was not the only attraction. Mrs. Potter gave several very interesting incidents concerning the great part music has taken in the present world problems.

Music is not only one of the great essentials for pleasure, but also for work, the hardest kind, such as our soldiers have had to endure. When everything seemed to fail, a song carried them on thru to victory.

Paul Scott sang, "On the Fields of France," followed by a reading, "To Our Flag," by Mrs. Kenyon. "The Service Flag" was sung by Ada Gillett. Garce Rhine read, "Your Flag and My Flag," which was very fittingly followed by the song "The Unfurling of the Flag," by Edith White.

The Glee Club gave "The Rally," as a final number, which was enjoyed by the student body as well as friends who were present.

### Our President's New Home

In our first number of the Review we cannot refrain from a few words regarding the new home of our President. We extend to Dr. and Mrs. Riley and their family our congratulations. This new place of residence is spacious and very beautiful. Had it been built especially for its present occupants it could not have been more suitable.

But our congratulations go to the students and faculty, and the friends of McMinnville College as well as to our president and his family. Dr. Riley has dedicated not only himself, but all that he has, to the welfare and best interests of our college. In his hands this new home will be only another avenue thru which he will render service to the institution to which he has given so many years of his life.

Dr. Riley leaves Tuesday (Dec. 3) for Chicago, to attend the meetings of the Executive Committee and of the Board of Education of the Northern Baptist Convention. While we shall miss our president, we are glad to spare him for such a mission even tho it means he will be away all the month.

## Gifts of Meaning

At a time when ties are drawn the closest, gifts have a deeper meaning.

For centuries the jewellers art has furnished the most cherished of gifts.

They are particularly suitable at this time. Being small, they relieve transportation and they carry value and meaning.

## Dielschneider Bros.

### MEMORIAL FOR DR. WOODY

(Continued from Page 1)

Dr. Woody was a faithful minister, a loyal friend, a trusted counselor, and a worthy example. His place in the religious affairs of the Northwest will not soon be filled, for as General Superintendent of the American Baptist Home Mission Society he showed unusual statesmanlike qualities, which enabled him to grasp the issues at hand. In his passing on November 9, we lose one who had proven his faith in the Christ to whom he devoted his life once for all in his college days.

## YOUR REVIEW

What are you going to do with your Review when you get it? Are you going to toss it into the stove or wood box after reading it, or allow it to expire miserably in the trash pile? If you do you will sorely regret it in years to come. Every Review is a part of the record of your college years. Every Review lost is so much of the record missing.

A man whose opinion in such a matter may be absolutely relied upon, told me not long ago that one of the great mistakes of his college life was, that he neglected to properly preserve his college papers. The few he has saved, now mean a great deal to him. Many of our older students have saved their Reviews for several years and are also beginning to realize their value.

What about our chapel addresses, our A. S. B. sessions, our Y. W. and Y. M. meetings and last but not least, our fraternal gatherings—are they not worth remembering? If they are don't trust your memory, just save your Reviews.

We are expecting to have some fine things in the paper this year. Rev. C. L. Trawin is our special contributor, members of our own faculty will give us contributions worth keeping and, if we may judge the future by the past, we may look forward to some first class chapel talks by prominent speakers.

Think with what pride some ten, fifteen or twenty years from now you will be showing your children where your name once got into the Review or where their dear mamma's or papa's little poem or original joke was printed on the back page of a short issue!

## WORTH SHOWING

Were you at your state fair this fall? It was a great exhibition of things worth showing. It required months, perhaps years of effort to bring some of those things to the point where they were worth showing. The ladies had done their best in yard and garden, in sewing-room and kitchen and indeed the result was worth showing. The men had culled their flocks and herds and gleaned from field and orchard their choicest grains and fruits and it was likewise worth showing. It was a great and varied exhibition of everything from lace collars to rag carpets, from peas to pumpkins, from honey bees to horned bulls.

It is not far from the fair grounds to the campus of the college, especially the agricultural school. But I am sitting under the shadow of an old fashioned college. I enter a class room, open a text book and turning to a certain chapter read these words, "STUDY TO SHOW THYSELF." It dawns upon me that I have found the key to a practical education. It is a great and fascinating as well as a profitable game to produce things worth showing. We are living in a great age for corn and cattle, prunes and pigs, potatoes and poultry. An age of specializing in their protection.

All's well with the world that man rules commercially. You have heard of the rocky New England farm and of the stranger's doubtful query, "What can you raise on such land as that?" A native replied with vim, "Men." There is now a great opportunity to grow a few men worth showing. The world is waiting to exhibit them. A stranger to the biography of great men looked over our humble college equipment the other day and asked, "What can you hope to do in the midst of other institutions so well equipped?" The answer is easy, "We can continue to turn out the thoroughbred men who are the salt of the nation." Let others specialize on corn and cattle and things of baser breed if they will, we have set ourselves the task of making men.

Young man or maiden, you come of noble stock. You may be a bit run down, but there is a chance for you to come back. You are next of kin to God. There is in the warp and woof of your soul a peculiar personality a bit of elemental stuff the world needs. Do not wait until tomorrow, begin now, STUDY TO SHOW THYSELF. Yield not to temptation. Do not lose yourself in a cowpen or a cornfield as the exhibitor of prize winners. Study to show thyself. Perchance the time may come, when in the economy of the golden age, you may be worth more than a pedigreed sheep or a prize short-horn. How much is a man better than a sheep any way? It depends on the man—also the sheep.

Rev. C. L. Trawin.

## MY FRIEND

Such a title sounds egotistical, but I do not mean it so. For twenty years he had been my friend, and our associations had been most intimate. Twice he had summoned me from the pastorate to the general work, where I served as one of his general missionaries; for a year my desk was by the side of his in his office; we have hunted, fished and camped together; together we have talked and prayed and planned when problems seemed insoluble; together we have discussed

frankly the educational and religious questions of the day; but, sweetest of all, we have—dare I say it of one whom I revered so highly?—loved as friends. He was one of the few men who called me by my first name. Needless to say he was always "Dr. Wooddy" to me, yet our friendship was none the less intimate and real.

What I shall say now will seem sacrilegious to many, but the saying of it will reveal my estimate of his greatness better than volumes. I used to take my most perplexing and heart-breaking problems to him with almost childlike confidence that he would show me the way out. I somehow felt that he could be trusted as a man would trust God, and that his answer would be almost infallible. I wasn't always sure that I knew what the leadership of the Spirit was; but I could understand Dr. Wooddy's answer to my questioning. Perhaps I was wrong. Maybe it was a lazy Christian's short-cut—to a face-to-face question, instead of a cable message across the ocean to God. Maybe I ought to have lived nearer to God. I'm just telling you, that's all. He was so big and strong and wise that it was easy to think of Christ as being like him. Sometimes when we hadn't met for a long time he would take me off all by ourselves, and sitting down by my side put his strong arm around me and draw me toward him with a quiet reserve, and say, "Well, George, how are you?" I never placed my arm around him—he was too big in every way for that! But we were nevertheless very close together in such moments. That's the way I feel toward Christ. I never take liberties with Christ, never call him endearing names, but I think of him as calling me tenderly his child and putting his loving arms about me. Those are the moments when I'm the sorriest for my sins, when I'm most willing to live or die for my Master, when my throat chokes and my tears start and my resolution is born again to be the sort of a man my Savior died to make me.

All the days that lengthen as I journey toward the sunrise of that eternal day I shall be glad that many of the stretches that are behind were made by the side of one whose stature enabled him to walk faster than I, but whose sympathies constrained him ever to shorten unobtrusively his stride to keep pace with mine, whose discerning eyes detected dangers that I did not see, whose prophetic soul saw the way out when I could find none, whose unfaltering faith kept him sweet when I was inclined to censure, and whose unswerving devotion to duty held him true when I was tempted to try an easier path. Yet the tear-dimmed eyes loiter not regretfully upon the pathway we climbed together, but linger expectantly upon the hilltop yonder, where already the kindling glow bespeaks the kingly glory beyond, and where friends shall meet to part no more forever. Good night, Dr. Wooddy; I'll see you in the morning.

Geo. R. Varney.

"Are they well seasoned troops?"  
"They ought to be. They were mustered in by their officers and then peppered by the enemy."

Nissen—"Did you go to the oyster supper at the club?"

Rich—"I did."

Nissen—"Were there many there?"

Rich—"I don't know, I only found one."

## From the Dennisonian

"The calendar is lacking  
This week, to  
Not c'est la guerre  
But c'est la flu."

"I rose with great alacrity  
To offer her my seat,  
'Twas a question whether she or I  
Should stand upon my feet."

## PROVOKED BY THE PRESIDENT'S PROCLAMATION

We use the word provoke in its best sense. It means to call forth, to stir up, to arouse, to awaken. It has been a long time since our president has issued such a provoking Thanksgiving proclamation. It should arouse the mind and heart and soul of the American people to praise God for many blessings of the first magnitude. We quote but a few of the President's words and briefly comment thereon.

OUR CUSTOM. It is a time honored custom. Long before the Christian era grateful people called upon and blessed the name of God for his benefits. At Thanksgiving we are chiefly concerned with blessing God instead of asking him to bless us. Without thanksgiving our hearts would become dead seas of sordid selfishness.

AS A NATION. Unswept by the ravages of war, undisturbed by the red flag of anarchy, chastened by the discipline of pestilence, made compassionate by the generous outpouring of our means, on tip toe with eagerness to play a noble part in reconstructing a shattered world; we should be filled with gratitude.

TRIUMPH OF RIGHT. It was for the rights of men we fought. We never had any doubt as to the inherent justice of our cause. We did doubt our worthiness to claim God's blessing as vindicators of such a righteous cause. In spite of our unworthiness, right has triumphed. To God be the praise.

PROMISE OF A NEW DAY. The race has ever dreamed of a golden age. Both patriotism and religion have cherished the ideals of a new day. Shall we help to bring this better day out of the ruin of crumbling dynasties and shepherdless peoples?

OUR GALLANT ARMIES. We have a right to be thankful for the cleanest army the sun ever shone upon. Never before has such a successful campaign been waged against social vice and intemperance. Let us arouse ourselves to hold in peace the ground we have taken in war.

REVIVAL OF THE BEST TRADITIONS OF OUR NATIONAL HISTORY. The ideals of our forefathers, the splendid fraternity of the French people in our hour of need, the brigading of all classes and nations in the cause of human freedom. We thank God for the rebirth of human brotherhood in action.

NEW AND GREATER DUTIES. New duties on land and sea, at home, and abroad, for time and eternity. Greater duties than ever before stirred the souls of men to devotion and their hands to action. Young men and women of today, you have opportunities for service so great and incentives so compelling that the angels of heaven would gladly exchange places with you. Be ye provoked to thanksgiving and aroused to action. "The night is far spent, the day is at hand."

Rev. C. L. Trawin.

# ASSOCIATION NOTES

## Y. M. C. A.

Our first meeting was held Oct. 9th. Vice President Halsey Carstens had charge of the meeting. Officers were elected to fill the vacancies caused by those who have enlisted. The results of the election was as follows: Pres., Halsey Carstens; Secretary, Hugh Whirry.

After the election we heard reports from the Y. M. C. A. conference recently held at Portland. Halsey Carstens gave us some general impressions of the conference and of the great men who were there. Jess Manley told us how the Y. M. C. A. was helping the fellows in the army to do the right. He told of the hard battle that the fellows were having but that the power to overcome came from the source of all power, Jesus Christ. Prof. Richards concluded the report by relating some of the plans and work to be done in connection with the S. A. T. C. Whatever the plans of the Y. M. C. A. are, Old Mac may be relied upon to do her share as she has ever done.

On Oct. 16th, Ensign Kenneth Campbell led the meeting. Mr. Campbell has recently been commissioned in the Navy and is home on a few days furlough. We were surely glad that he could be with us on this occasion and lead our meeting. The topic was: Lessons from Our Summer's Experience. Kenneth told of many of his experiences while in training and drew many helpful analogies from them. Various helpful experiences were told in the meeting.

In spite of the fact that there are few men in school this year, the work of the Y. M. C. A. is going off with a boom. The new president already has his cabinet selected and at work. Dr. Varney has been appointed as faculty advisor of the cabinet and as normal class leader. The Bible study classes are being organized and every man in school is going to be enrolled in a class.

## Y. W. C. A.

We are Young, with our lives before us; we are Women, in this—woman's golden age; we are Christians—the most sacred thing of life; we are an Association, which embodies these principles. Thus our McMinnville College Y. W. C. A. is a great factor that expresses the ideals of "Mac's" old girls and also that shapes the life of the new, oncoming ones.

On Oct. 5, a most hearty welcome was given the new girls at the Y. W. C. A. reception, and it was there that the first wedding of the school year took place. The old and new girls were bound in a strong tie of matrimony "till death do us part" and now stand united as one—no longer divided as old and new.

Eight five girls almost the entire membership of the girls in college, now have a responsible position as a Y. W. C. A. member which no other girl can fill. Due to the absence from school of two members of the cabinet, Marjory Foskett and Dorothy Arnold, new members, have been appointed to fill their places, namely, Beulah Kenyon and Frankie Hornbeck.

Plans were made for the united war work drive, but due to the enforced vacation it was impossible to carry it thru. However, that does not mean that we as a Y. W. C. A. had no part in the great glory of that work. The membership gave thru the county drive, and gave not only financially, but followed it up with many prayers and best wishes to our boys.

Study classes have been delayed, but as soon as the rush of the holidays is over, the natural work will be resumed. Plans have been made, and every member is anxious to do her part, with the cabinet filled with good, efficient members and a consecrated president leading, the students may this year expect great things from our Y. W. C. A.

## Y. M. C. A. STAG

### Old Students Initiate New Ones Into the Mysteries of An Annual Event

The new fellows, for whom the reception was held, numbered nearly as many as the ones who had been thru the mill; so to speak. But from start to finish it was an enjoyable evening. After the formality of getting acquainted, a serpentine was formed and in battle formation the column stamped and yelled around the gym like good ones. Then came a try at the college yells, and because of a lack of older students and a realization of the fact that there was nothing to yell for this year, it was hard to arouse much enthusiasm. But Martin soon warmed up to his job and cheer followed cheer until it was out of the question to let out even a yap. Under such conditions the aforementioned yell leader tried the college song! Yell for fifteen minutes at the top of your voice and try to sing if you think it is possible. After several attempts Professor Coe set the pitch and we sang the praises of old "Mac" to the best of our ability.

Eats followed, and in spite of the high cost of living each one managed to get his share and some more, if he was slick enough. Those pies stood about as much chance of survival as the Kaiser would in France. It was amazing to an ordinary person! After the eats and a few talks, the end of a perfect day was brought to a glorious close, and the new boys, notwithstanding the depleted condition of our ranks, were given the glad hand and took their positions as full fledged members of old Mac.

## STUDENT VOLUNTEERS

The Volunteers meet every Sunday afternoon, at 5:30, for a period of devotion and inspiration, under the prayer guidance of the leader. Every student in college is welcome to come to these meetings. Surely there is no student here who is not at least passingly interested in the cause of missions. We urge you to come and help us study and consider these vital interests. There are also those who have thought about this great work as a personal question—we urge you to come and help us with your interest and prayers.

Last Sunday the meeting was especially interesting to those present. Miss Marian Banker brought before us the most essential elements of a Christian life, namely the prayer-life and service-life of God's ideal followers. This was made to apply to the life that some of us have chosen to lead and proved to be a strong challenge for a more devoted and surrendered life. All readers of the Review will rejoice with us to know that Mr. Floyd Ostensen has just become a Student Volunteer by signing the pledge card. Also that Mr. Wakefield Fletcher and Miss Rose Smith are new members of our local organization. This raises the membership of our band to fifteen active members, and together with the five associate members, (those who have not yet signed the card) we have twenty members. We all join in a cordial welcome to visitors.

Nobody cares what happens to the Turk, just so it happens.

Definition by Prof. Gardner: "Ambiguity" is telling the truth when you don't mean to."

## Y. W. THANKSGIVING

In this the year of 1918 our Y. W. has felt the true spirit of Thanksgiving and has tried to express it in a joint meeting with the Y. M., on Nov. 27. We have had a part in the war campaigns in aiding our boys; every meeting of the year has been one of prayer, and each individual girl has done her best.

We all realized the many blessings which our college has shared, for our splendid faculty and the Christian spirit among the students. For this, with the peace that has come to our country, and for every good gift we thank Him who has kept us in His care through this year and is still guiding us on.

## FRESHMAN ENGLISH BOYS

Of all the lads in English class,  
The Rich one you will see  
Has a smile most pleasant and sincere.  
Don't you agree with me?

Another lad with curly hair,  
Speaks faster than we folk.  
You may be sure whate'er you say,  
He's game to take a joke.

A good and pleasant boy is one  
We all are glad to know,  
He answers all Prof's questions right.  
Ask Avard why it's so.

An innocent lad, with wide blue eyes  
And furrows on his brow,  
Makes clever comments in his class.  
We all wish we knew how.

A boy, polite, always erect,  
He smiles, and it is bright and gay.  
A trifle halting in his speech,  
But wait—he'll make a name some day.

A deferential fellow, tall;  
But lazy—say it not.  
When teacher calls on him, you know,  
He's "Johnny on the spot."

A Gentle red-haired lad is there,  
Of bashful manners he,  
But quite, dignified, and bright—  
His name some day you'll see.

One Manley fellow in the class  
(I'm sure he'll not object)  
He's very unpretentious now  
But wait a few years yet.

M. I. RITE.

## LAMBDA LAMBDA SIGMA

On the first Friday evening of this new school year the Lambda Lambda Sigma sorority met at the home of our Royal Majesty, Beulah Kenyon. As it was rather stormy and chilly without, the big, homey fire place felt good to us. Somehow, it sent its rosy glow into our hearts, bringing us very close together. After the necessary business, Beulah served a simple but delicious salad. Though loath to leave that pleasant home, we soon broke up for the evening.

The following Friday, 7 o'clock, found us in the basement of the library diligently cleaning spaghnum moss. All the girls were present but Bernice Varney. As we worked we planned. Indeed, our minds and tongues did double work until the appearance of another group of girls turned our thoughts into more general topics. About 9 we left and strolled down "B St." singing to our heart's content. In preference to going indoors we stopped under an arc light for a while. While there along came some pumpkin pies (our mouths just watered at the sight) and tho we gave chase, we didn't moelst a single pie! That excitement over, we lingered for a few moments and then went home.

On the Monday evening before Ruth Hunter left for Seattle, where she attends U. of W., her sorority sisters, the Lambdas, met together to show her in some small way, their love and appreciation. What a jolly good time we had recalling entertainments, frat. meetings, et cetera of the past year, planning for the year coming, and helping as well as hindering Ruth with that new waist she was embroidering. We sang and had a general happy time until late in the evening. Seven of our number were present.

## ALPHA GAMMA NU

At the opening of the school year it seemed as tho there was to be only one of our men back, namely, Martin Storgaard. But after a few days of patient waiting we were glad to welcome back another of our men, Paul Scott. At the opening of school Prof. Van was home and some of the fellows resident in McMinnville who were entering the S. A. T. C. had not yet departed so we had a good old meeting, in spite of conditions. Blair Stewart and Park Stewart are in nearby schools, so we hope that they may find it possible to be with us quite frequently.

Today we find men of our fraternity scattered over the globe. Some are in Siberia, some in France, some in the various training camps thruout our own country. Many of our men are in the navy.

Altho we are few in numbers we hope that this year may be a very happy one in the annals of Alpha Gamma Nu.

Tramp—"Kind lady will you give me something to eat?"

Lady—"What! You here again. I will call my husband."

Tramp—"Excuse me lady, I ain't no cannibal, good day."

## PHI EPSILON

The Phi Epsilon Fraternity has been depleted in numbers to such an extent, on account of the war, that as a result, we have only three active members in school this year. Consequently, we are not planning to do as much active work as usual, but we are looking forward to the time when we hope to have some of our thirty-two members, who are now in service, back with us.

## KAPPA ALPHA PHI

The first meeting of the Kappa Alpha Phi Fraternity was held at the home of Miss Margaret Ramsey. The evening was spent in a joyous renewal of our old fellowship, each girl relating some interesting bits of her summer's experiences.

The Fraternity deeply regrets the absence of five of its members but is very happy in the return of Ida May Pope after an absence of one year from McMinnville College.

Kappa Alpha Phi also takes pleasure in announcing Miss Mary Galvin as a new member.

On the evening of Oct. 12, the Fraternity met in the Library hall to pick and clear spaghnum moss for the Red Cross. It has been decided that in so far as possible, the Fraternity meetings will be given over to Red Cross work and other definite patriotic pursuits during the coming year.

Friday evening of November 15 was an exceedingly happy time for the members of the Kappa Alpha Phi Fraternity. Not only because all of the girls had returned, fully recovered from influenza and Fraternity life could be resumed, but especially because of Founders Day, which was brought to a close at the home of Mrs. Gilbert Tilbury, one of the resident members of the Fraternity.

One of the pleasures of the evening was the reading of the Round Robin which brought word from the absent members as well as summer greetings from those present.

The semi-annual election of officers for the Fraternity was held later in the evening, at which time the following were unanimously chosen. In stallation will be held in the near future:

Ada Gillett, Casiqua; Vivian Stewart, Escriote; Grace Rhine, Chaplin; Beth Stewart, Editor; Margaret Ramsey, Assistant Editor.

Reluctantly the Fraternity members put away their knitting and the meeting was brought to a close with the Fraternity song.

## THE PI BETA THETA

The Pi Beta Theta girls met at Mabel Davids' home on Friday evening, Nov. 22. We were royally entertained by the charming hostess. During the evening, all helped make candy by deed or suggestion. In this case, it must have been too many cooks that spoiled the candy, although it was good it was not firm enough, so we had a spoony time with it.

We are happy to announce that Nina McCart has become one of our members.

## DELTA PSI DELTA

Most of our men who would ordinarily have been back this year are now in some branch of Uncle Sam's army. Our membership is necessarily small but we are more fortunate than our fellow fraternities.

We are glad to announce Henry Weiss as a new member of our frat. He could not be back in Mac this year, as he is in the army. He is stationed at present at Camp Fremont, California.

All who knew Roger Elder, a graduate of last year, are glad to know that Roger has won a commission as a second lieutenant. He is stationed at Camp Hancock in Georgia. Axel Osterholm can also prefix, lieutenant, to his name. Three cheers for Axel! He is located at Camp Pike in Arkansas.

Charles Davis was down from Portland Thanksgiving. He was very much disappointed in not being able to go to Camp Lewis as he was ready to leave the day peace was declared. Orders came to cancel the call and so they did not entrain. He plans on coming back to Mac next semester, if it is at all possible.

Harlow Leger, who is in the Officers Material School at Bremerton, was down Sunday, November 24. Harlow likes the branch of the service he is in but says he will be glad to get back to Mac again.

## ZETA CHI

On Friday the 11th, Zeta Chi met at the Dielscheider home. Business was quickly dispensed with, as our main object was the initiation of two new members, Linna Vaile, who has served faithfully her dreary term as a pledge, and Ruth O'Keefe. We are now proud to present them as Zeta Chis. We were very glad to have Vera Vaile, a former sister, with us for the evening.

To say that we had a "pleasant" time would be inexpressive, for you can well imagine that we as well as the victims of the Zeta Chi "goat" were kept busy trying to guess what would happen next, and by the time the first degree was over the girls felt that they would have to be of pretty durable quality if they were to survive the thirty degrees to come. However, they were good soldiers, from the start and we veterans learned that there is more than one way to "go over the top."

We regret keenly that some of our sisters cannot be with us this year, but such is the condition of large families and we have resolved to make this year one of harmonious and effective work as well as whole-hearted pleasure.

On Nov. 15th we met with Mrs. Riley for the first time this year. We were glad that Evelyn Ballard could be with us, during her visit home from her Y. W. work in Bellingham, Washington. Our next meeting will be at the home of Ethel Ranney on Nov. 23rd.

## DR. H. J. P. LERRIGO ADDRESSES CHAPEL

### Secretary of National Laymen's Movement Makes Stirring Speech

Monday morning, October 14, Dr. H. J. P. Lerrigo spoke in Chapel. Dr. Lerrigo was formerly a medical missionary in the Philippines and later in China. At present he is secretary of the Five-Year Program and representative of the Laymen's Movement.

Dr. Lerrigo spoke on the conditions in the church at the present day. He said its condition was like that of a friend of his, who came to him when he was first beginning his practise, whose heart failed to act properly. The result was, "cold extremities." "This," he said, "is a symptom found in many churches today."

But he did not stop there. He went beyond that and gave suggestions as to how conditions could be again brought to normal. The two chief aides were the Five-Year Program as adopted by the Baptist Churches of the Northern Convention and the Laymen's movement.

Everyone enjoyed Dr. Lerrigo's message and we are glad he could be with us even for one brief day. He will always find a cordial welcome awaiting him in McMinnville College.

## DR. BRUCE KINNEY IN CHAPEL

McMinnville College was fortunate enough to have Dr. Bruce Kinney as a chapel speaker Nov. 15. He comes to us from the Middle West, where he holds a prominent position in our denomination. Throughout his entire address he had the close attention of every student. The central thought of his address was:

Why are young people in college? They are there for the training and disciplining of their powers. The man who has his powers trained and disciplined controls the world.

Trained and disciplined powers have been requirements in choosing men for officers in the army training camps. The great task of reconstruction which lies just before us demands it. It is a requirement in demonstrating to the world that Christianity has not failed. The task of making the world safe for democracy is scarcely begun. We must make our religion safe for the world. Before us lies the great task of making our cities clean and safe for the men returning from the army and navy.

The world's supreme need is Jesus Christ Himself. Our powers must be trained and disciplined in order that we may give Christ to the world. This is our supreme task.

### Mac Men at Dennison

The government asked that Dennison University recommend fifteen men for training in Military Aeronautics as Balloon Maneuvering Officers. Seventy-five men took the required examinations and among the fifteen chosen were three "Mac" men, whom the students of last year will remember. John Kenneth Riley was recommended for an observer and Carlton Lathrop and Bertrand Cash as pilots. This is only a sample of what McMinnville men do when they leave us. We are proud of the three and feel sure that if fifteen "Mac men" instead of three, had been at Dennison, all would have been chosen.

## A CHALLENGE

The prospects for a girls' basketball team that will exceed even the hopes of previous years are more encouraging than was even hoped for. With our present shortage of men the girls are stepping into the breach and are determined that those boys who donned the "Mac" suits last year with so much success shall feel nothing but pride in the reports of athletics that reach them.

It has been suggested that Miss Watson might be our coach and with those who are back who served their apprenticeship last year, reenforced by our splendid new girls, there can be nothing but victory awaiting us on all sides. When the call comes, girls, act as we have often said the boys should at such times and show those boys who are represented on our service flag that we are behind them even in athletics.

### Former Professor Returns

We are all glad to welcome Miss Pope back after one year of absence. She has previously served McMinnville College six years but during the past year she has been in the service of the government. Miss Pope has again taken up her work here as instructor in stenography and typewriting as well as having a class in French for the preparatory department. Miss Pope has always been a friend to the students and loved by all, so we are happy to have her as a member of our faculty once more.

## STUDENT TRAINING CAMP AT FORT FUN

### B. Y. P. U. Extends a Hearty Welcome to McMinnville's Loyal Soldiers

On the evening of October first, a peppy bunch of Rookies reported at Fort Fun, commonly known as the Baptist Church. They were met at the door by a group of "Y" men (and the door by a group of "Y" men (and the door by a group of "Y" men (and the door by a group of "Y" men.) Each bewildered recruit was assisted through his preliminary registration and given a white arm band inscribed with such interesting details as his name, place of residence and squad number.

Several learned specialists and renowned physicians inflicted on the would-be soldiers a rigid physical examination. Those who successfully passed this ordeal were next reviewed by General Edith White and her staff. The Rookies were glad of a few moments respite in which to become acquainted with the members of their respective squads, before Second Lieutenant Wilifrid Richards called, "Attention!" Never were raw recruits so apt in drill. In fact a few quite "extinguished" themselves.

About this time, the Y. M. C. A. proved itself as always the soldier's friend by providing an entertainment, guaranteed to destroy any lurking germs of homesickness. "Y" man in charge, spoke a few well chosen words of welcome and introduced our beloved Chaplain, Rev. C. L. Trawin, whose inspiring message will not soon be forgotten.

To further enhance the enjoyment of the evening, the thoughtful "Y" secretary had secured the services of the Metropolitan Opera Company, which presented that classic, "Little Red Ridinghood."

As a closing feature, the visiting secretary from Camp Lewis, Prof.

Van Osdel, led a happy song practice in which "Mr. Zip, Zip, Zip" and "Pull Your Blinds Down, Mary Ann" proved great favorites. After obeying the welcome mess call, the soldiers assembled once more to sing their Regimental Song, "McMinnville College," and then retired at the sound of "Taps," feeling well pleased with life at Fort Fun.

## CHANGES WE HAVE NOTICED

### COLLEGE SEES NEW FACES ON CHAPEL PLATFORM

#### Miss Watson and Professor Richards New to Our Faculty—Miss Pope Returns After Year's Absence

The fall of 1918 sees many changes in student body and faculty alike. In Chapel more than any other place, are these changes noticed. No more does the freshman look with envious eyes at the sophomore who is seated in the gallery, for all are seated together on the lower floor. But this change is for the better because now we shall learn to know each other and see more of each other than heretofore.

There is another change, quite as marked as the first, and also, we believe, for the better. This change is noticed not on the floor in Chapel but on the platform. Miss Ida May Pope is again with us after a year spent in government service. It is with great joy we welcome her and her courses among us again. Miss Pope is in charge of the Stenography and Typewriting departments and also has a class in preparatory French. We hope Miss Pope will not find it necessary to leave us again.

Miss Martha B. Watson is the only entirely unfamiliar face among our faculty. Miss Watson comes to us from New York where she studied Piano with La Farge. It is with pleasure we welcome her to the piano and harmony departments of the Conservatory. We feel that she is one of us and with us in all our activities.

Pastor C. L. Trawin is now a regular speaker in our Chapel services. We feel he is especially fitted to be Professor of Bible because of his long service and familiarity with that great book, and also because he is pastor of the Baptist Church. The College and Church should be brought into even closer harmony than before, because of this added duty of Pastor Trawin's.

Professor Cyril F. Richards is not new to those of us who have been here in former years, but we feel he is particularly fitted to take up his new duties as Professor of Physics and Chemistry. In addition to these classes, Mr. Richards is also teaching two classes in biology. We are glad to have Prof. Richards with us and earnestly hope our new relations together may be even happier than they were as students. With these changes in our faculty we enter the new college year, trusting it may prove to be McMinnville's best year, a year which will ever stand out in all the memories of those who are here.

All were sorry to learn on Wednesday morning before school closed that Professor Coe would be unable to meet his classes because of illness. However, we heartily welcome him back again after our compulsory vacation.

## They Speak for Old "Mac"

Word has been received that Mrs. Robert V. Russel has refused a very flattering offer to take charge of the Y. W. C. A. work in Missoula, Montana. Mrs. Russel feels her place is in Victoria, British Columbia, for the coming year. The old students will remember Mrs. Russel as Melisa Vaile and will be glad to hear of her success.

Some will remember and be glad to hear of Vernon M. Elwell's success in the Sniper's school in Quantico, Virginia. He has finished his course there and is hoping very soon to see service in France as an expert rifleman.

Miss Evelyn Ballard has been elected Social Secretary of the Bellingham Y. W. Association. She has given up her plans to enter training this year because of this splendid offer and feels that her place is in Bellingham for the present.

Kenneth Campbell was as successful as we have become accustomed to expect all Mac boys to be, and passed thru the ensign school with honors. Ensign Campbell was with us for a ten day vacation but has now returned to New York, to resume active service.

### Independent Colleges Meet in Conference

At the Annual Conference of the Presidents and faculties of the Independent Colleges held at Pacific College, November 29-30, McMinnville College was represented by President Riley, Dean Northup, and Professor Coe. The institutions represented in this Conference are Albany, Philomath, Pacific, Reed and McMinnville Colleges; Willamette, Pacific and Eugene Bible Universities. Topics vital to these colleges at this time were discussed. Professor Coe represented McMinnville on the program, his subject being, "Coordination of the Independent Colleges."

### IS EVERYBODY HAPPY? YAE BO!

That was the slogan for the jolly band of hikers who chose the whole out of doors as the best place to escape "flu" germs, during the recent epidemic.

Several different trips were taken in various kinds of weather, each of which was a success. No amount of rain was able to dampen the spirits of those hikers.

Laden with lunch baskets the adventurers would gather early in the morning at the college club and set out from thence, under the leadership of Professor Richards, for parts unknown.

Most of the points of interest were visited, from Amity hills to the power plant. The latter trip was made thru a driving rain and the resulting mud. Consequently it was voted the best of the series, or perhaps it was the dinner that was the best.

The climax and finis were accomplished by a visit to the Poor Farm and from thence to the cemetery.

Besides enjoying a splendid time, we remained an entirely "fluless" group and to those who want a splendid time, full of pep and entirely minus the company of germs, hiking is highly recommended.

Is everybody happy? Yae Bo!

#### A Solitary Way

"There is a mystery in human hearts,  
and tho we be surrounded by a  
host

Of those who love us, from time to  
time there comes a sense of utter  
loneliness.

Our dearest friends are strangers to  
our joys and cannot realize our  
bitterness.

Such is the cry of each of us in turn,  
no matter what or where our lot  
may be

Each heart mysterious even to itself,  
must live its inner life of solitude.

And would you know the reason why  
this is? It is because the Lord  
desires our love.

In every heart He wishes to be first;  
He therefore holds the secret key  
Himself;

To open all its chambers and to bless  
with perfect sympathy and holy  
peace,

Each solitary soul that comes to Him.  
So when we feel this loneliness, it is  
a call to come to Him.

His presence satisfies the longing  
soul, and those who walk with  
Him from day to day

Can never have a solitary way.  
And when beneath the heavy cross you  
faint and say, 'I cannot bear this  
load alone'

You say the truth.  
Christ made it purposely so heavy  
that you must return to Him.

The bitter grief that no one under-  
stands conveys a secret message from  
the King.

And when you cannot understand, it  
is a call to come to Him again.

He alone is infinite in Grace. His  
presence satisfies the longing soul.  
And those who walk with Him from  
day to day can never have a  
solitary way."

### HERE'S ONE FROM VESTER

"Maconians,"

This is a Sunday night and as I have  
been sitting here I have been pictur-  
ing you all, almost all, in church  
listening to some good advice and  
elevating thoughts. Just a little over  
three thousand miles from there in  
body, but with you in spirit.

As a soldier of King George I re-  
ceive all my religious inspiration,  
that comes from exterior source, from  
our Padre, every Sunday morning. It  
is generally very short and sweet,  
both for his own sake and ours. The  
end is always marked by singing,  
"The King." Can say every church  
in Canada follows the same practice.

You know in this man's army we do  
as in most others except for a few  
things that George requires. One is  
that we have to arise at the sound  
of a bugle call that almost puts one  
asleep. Once in a while the bugler  
blasts out with the old Yankee—"Can't  
get 'em up;" then I sure jump. Talk  
about polished brass. Why we have  
enough brass to polish to furnish any  
state capitol and have some over,  
don't cha know. One thing this all  
has to be done according to King's  
taste—and his is very particular. I  
often wonder how Martin Storgaard  
would like to polish brass instead of  
trying to run that College Club.

As Engineers we are different from  
the Yanks. Mr. Tommy Atkins when  
in a Field Company of Engineers is  
at the very front. A Field Company  
has as its purpose to direct construc-  
tion of advance bridges, build  
trenches—dugouts, machine gun pits  
and maintain communication at the  
front, and in No Man's Land at all  
times. The work is done by the In-  
fantry under the direction of the  
Engineers. My special part was drill  
in communication work. We have a  
good example of the front near our  
camp, and have received some real  
training. The Engineers are known  
in England as the "Unsung Heroes."  
Those who have been there have paid  
the price.

And just a few words on Canada's  
returned Veterans—they are Veterans,  
though some are but 18 or 20. Thou-  
sands around this town and part of  
the country, wear the button. This  
little country of seven million popu-  
lation has sent her full quota into  
the enemy's face. Can you imagine  
that over 50 per cent of them have  
been casualties. Thousands now in  
England never will return because  
they are too far gone. Some men

wear nine or ten wound bars. Many  
families here have maple leaves that  
tell of sons and husbands who gave  
their all for the sake of their coun-  
try. Canada has lost more men dead  
than the United States lost altogether  
in the war. Imagine, England lost  
more in ten days than the United  
States in her whole part. And still  
through it all and over it all these  
Canadian people, when peace was de-  
clared made the day, not one of shout-  
ing and yelling, but one of Thanks-  
giving to God from whom the Victory  
came. After four years in war the  
people have it as part of their life.  
Can the world ever forget such a  
people?

And to allow me to give you as  
"Mac" students and friends the slogan  
and spirit of the Canadian army—  
what made "Jack Canuk" do his part  
—what will make him go on for the  
future, and I think it applies to each  
and every one even though we did  
not go to the front. It is, "Carry  
On."

Sincerely,

Jack Canuk,

Spr. RAYMOND E. VESTER.

Don't forget about that Conquest  
Banquet. It's one of the big things  
of the whole college year.

If you find something in the Review  
you don't like kindly remember that  
the Editor doesn't do all the writing  
for this paper.

Some of us are wondering how  
Professor C. F. Richards felt Dec. 2,  
about 11:20 a. m.
