LOCAL HIGH SCHOOL WINS FIRST GRIDIRON CONTEST

McMinnville High School football eleven journeyed over to Woodburn for their first football game of the season, winning over their opponents by one touchdown. Coach Jackson is proud of the way his team performed and hopes to have a winning team. Ingraham Jones, star fullback, for the local high, was laid out in the contest and may be out of the game for a while. Next Saturday Salem high school plays here. This promises to be a good game and will give the football fans, in the college, an opportunity to witness the contest, for there are many football rooters in college even if the College does not support a football team.

ALUMNI PLAN HOMECOMING FOR NOVEMBER

(Continued from Page One) without making reference to the reunion in June. During Commencement week of 1922, the regular reunion and Alumni Banquet will be held. At this time it is expected that over one hundred of the graduates will be back on the campus. And then in 1923 will be the "Grand Homecoming." No one can afford to miss this grandest time of all. The aim of the association is to have three hundred Alumni on the campus during the commencement week in 1923. The plans for this big event are even now materializing and committees are being selected for the different events and to boost the celebration. Truly everyone should work to make this a "Grand Homecoming," the first the college has ever seen, but not the last.

During the past two years the association, under the guidance of Cyril F. Richards '18, president; Gilbert L. Tilbury '09, vice-president; Mrs. Esther McSherry '19, secretary; Leonard S. Hopfield '01, treasurer, made splendid progress and growth. At the meeting last June the following officers were elected, Irl McSherry '20, president; Harlow Leger '21, vice-president; Mrs. Esther L. McSherry '19, secretary; Margaret Mann '17, treasurer. It is the purpose of the new corps of officers to carry on the work of the association into greater and larger fields than ever before. As the college has done great things for each Alumnus, it is the purpose of each one to boost her to greater things.

IRL S. MCSHERRY.

"Never tell your age except to a victim of the lockjaw."
"May the bucket of tears fate has in store for you spring a leak before it reaches you."
"May your life go along like a fried egg, sunny side up."
"May you go out without your umbrella and get caught in the reign of prosperity."

Senior Council Adopts Set of Rules—Suspension for Violating Honor System

All students found violating the honor system at Washington will have their names published in the daily, it was decided at the meeting of the senior council Wednesday afternoon. The council, acting on the promise that there is no place in the University for a cheater, adopted the following set of rules:

A student found cheating in a midterm examination will be dropped from the University for the rest of the quarter, losing all credit, will be on probation the following quarter, and will have his name published in the daily.

Infraction of the honor system in a final examination will be punished by suspension from college for the ensuing quarter, probation for the succeeding quarter, and publication of the offense in the daily.

The senior council is determined to act quickly and as strictly as possible in dealing with all violations. They have already acted upon two cases left over from last year.

The above comes from the U. of W. and it seems that it is the right course to take for the benefit of the individual. Any person who will break his word when he is honor bound not to cheat will, when he is exposed, turn square around and make good or drop out entirely. In either case it is the best for the institution.

BE THE BEST WHAT—EVER YOU ARE

If you can't be a pine on the top of the hill
Be a scrub in the valley—but be
The best little scrub by the side of the rill;
Be a bush if you can't be a tree.

If you can't be a bush be a bit of the grass,
Some highway some happier make,
If you can't be a muskie then just be a bass—
But the liveliest bass in the lake!

We can't all be captains, we've got to be crew,
There's something for all of us here,
There's big work to do and there's lesser to do,
And the task we must do is the near.

If you can't be a highway then just be a trail,
If you can't be the sun be a star;
It isn't by size that you win or you fail—
Be the best of whatever you are!
By DOUGLAS MALLOCH.

SOCIETY FOR HELPING THE COLLEGE GIRLS

Girls struggling for higher education are helped by the Massachusetts society for the University Education of Women. The society's money is lent to self-supporting girls, to girls at home helping with the housework whose parents can support them but

not give them a college education, and to girls who suffer reverses of fortune before they have completed their course.

A loan library, composed chiefly of college text books, also is kept for the benefit of young women students of Boston University who can not afford to buy textbooks.

Two graduate fellowships were granted this year by the society, one in chemistry at Boston University and the other in French at Radcliffe. Of the students benefiting this year, many are looking forward to work in the line of social service, medicine, institutional management, domestic science, library science, and journalism.—School Life.

NEW CLASS MEETS FOR FIRST TIME

125 Students Turn Out for Mixed Sunday School Class; Success is Sure Officers Soon be Elected for Various New Services

The much-heralded discussion class taught by Professor Van Osdel, started out with a "bang" last Sunday when 125 University men and women gathered in the auditorium of the First Baptist church at the initial meeting.

The announcement that the class would be "mixed" attracted many who perhaps would not have attended in other circumstances. Horace Cushing acted as temporary chairman in the absence of any permanent officers. He appointed a representative in each of the University dormitories to advertise and boost the class.

Professor Van Osdel, who has made a success of similar groups which he has led, stated that the aim of the discussions would be to gain a little of the "mainspring" which impelled the early missionary, Paul, to travel, throughout the civilized world evangelizing. He spoke of the plan of the class to touch every student in the University. He advocated the giving by the new organization of a good sum of money annually to missions and further outlined his plans to make the class of power which will be felt throughout the University and city.

The keynote of Prof. Van Osdel's talk was struck when he said, "We must name Christ where he has never been named and not build on some another's foundation."

Special music by Horace Cushing will be the attraction at next Sunday's session and officials in charge of the class expect a much larger attendance even than last Sunday's. With every present member of the organization boosting, prospects seem bright for making the class, which is as yet nameless, one of the most unique Bible study groups in the Southland.—U. of R. Campus.

DR. SUTLIFF ADDRESSES CHAPEL

Dr. Sutliff, supply pastor at the White Temple church in Portland, conducted the Chapel services last Tuesday.

He gave a very interesting discourse on the Bible and the great place that it ought to fill in the lives of college men and women.

Dr. Sutliff conducts a Bible study class in the Presbyterian church each Monday evening. These are attended by some of the students and faculty and those that go, say that the services are very helpful and instructive and urge those who have that evening free to attend.

THE BETTER PART

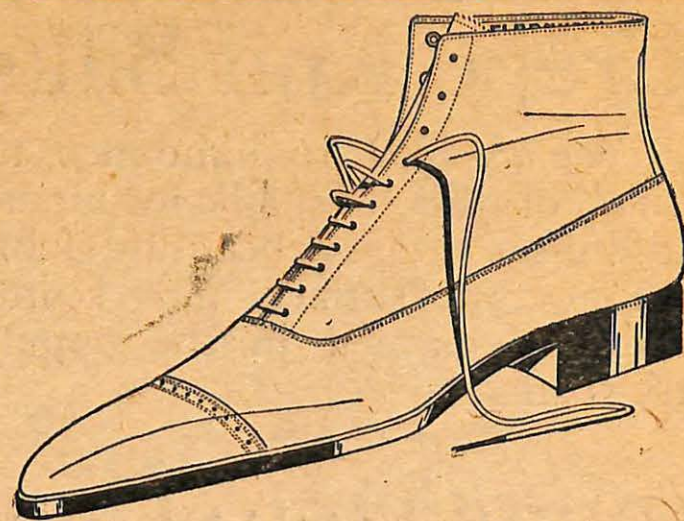

It is better to lose with a conscience clean
Than to win by a trick unfair;
It is better to fail and to know you've been,
Whatever the prize was, square,
Than to claim the joy of a far-off goal
And the cheers of the standers-by,
And to know down deep in your inmost soul
A cheat you must live and die.

Who wins by trick may take the prize,
And at first he may think it sweet,
But many a day in the future lies
When he'll wish he had met defeat;
For the man who lost shall be glad at heart
And walk with his head up high,
While his conqueror knows he must play the part
Of a cheat and a living lie.

The prize seems fair when the fight is on,
But save it is truly won,
You will hate the thing when the crowds are gone,
For it stands for a false deed done.
And it's better you never should reach your goal
Than ever success to buy
At the price of knowing down in your soul
That your glory is all a lie.—Ex.

INDUSTRIAL CONFERENCE

The Y. W. C. A. held an Industrial Conference at Portland on Oct. 7-9. The college girls, who assembled there, received a broader conception and greater insight into the life of the industrial girls of the state.

Friday afternoon the journey thru factory land started at Neustadter Bros. Co. Here all the various steps in the cutting out and making of overalls, work shirts, mackinaws, leather vests, wool trousers, overcoats and silk shirts were observed.

At the present time the factory is employing about 400 in the various departments. The employees work 4 hours in the afternoon with rest period at 10 and 3 o'clock. This is a vast improvement over conditions a few years ago.

The "turn over" during the summer is about 50 per cent while in the winter it is generally about 7 per cent.

Mr. Campbell, manager of Neustadter Bros., stated that four weeks ago they ran an "add" in the paper and so many applicants presented themselves that the regular employees could not enter the factory. What wonder that the demands of the working girl are not heeded by the employer when he knows that there are many who will be willing to fill their place.

In connection with the factory is a well equipped cafeteria, where the employees are able to secure well balanced meals for 20 or 30 cents.

However, this factory was a marked contrast to the up-to-date Tru Blu factory which was visited next. Here the machines are placed to conserve space and time as well as to lessen the chance for a mob in case of fire. It was noted that the ventilation was much better here than in the less modern factory.

The last factory to be visited was the Woolen Mills at St. Johns. This was an education in itself. It was noted that where about 60 distinct processes thru which the virgin wool was put before it was ready for weaving.

The noise from the looms in the weaving rooms was so intense that one could barely should loud enough to be heard a few feet away.

The Club House, which is maintained by the company, is a real asset to it. Here the employees can go to bowl, play pool, checkers, etc., and not be disturbed by the terrible noise of the factory. In the building there is also a rest room and a cafeteria, which is run on a cooperative basis.

Many problems from the standpoint of the employer and employee were observed in the various factories and also in the addresses given by the heads of some of the factories and labor organizations.

Miss Taylor and Miss Orrs, Industrial Secretaries, presented to the conference plans for consideration in the Forum and also some of the latest bills in congress on industrial welfare.

The conference closed with an eye-opener address by Pres. Schultz of Reed College. Education was his main theme and it was noted that he favored the smaller colleges.

MARK RICH GOES HOME

A week ago Tuesday morning, Mark Rich, president of the Associated Students, arose from his peaceful slumbers, donned his togs, and went forth in his customary cheerful manner to attack the problems of his realm. However, before the sun had reached the zenith, Mr. Rich felt his exuberant store of ruddy health slowly slipping. His fevered brow and unsteady step warned him to return to his domicile and seek repose.

Wednesday morning Dr. Cook was summoned and after a careful diagnosis, prescribed rest and quietness for one week. Mr. Rich's condition had not improved Thursday, so his father drove up from his home at Orenco and took the president home for recuperation.

It was reported that Mr. Rich had shown symptoms of typhoid, but it is hoped that such is only a rumor, and that before a week has elapsed his cheery countenance will again be seen on the campus.

During the president's illness, Miss Delia Ingram, vice-president, is wielding the gavel in a very able manner.

"He was born with a silver spoon in his mouth." "That's nothing. She was born with an oil well in her back yard."—Life.

Student Volunteers

The Student Volunteers have resumed their meetings for the year and have had several very interesting as well as instructive meetings. The meetings have been well attended and we are glad for the missionary interest among the students.

The meeting for Sunday, Oct. 9, was led by Eva Cummins. The central thought brought out was that now is the time for you to make your supreme decision as to the work which God has for you to do.

We want to invite all who are at all interested in missionary work to attend our meetings every Sunday morning at 9 o'clock.

B. Y. P. U SHOWS INCREASE IN INTEREST AND ATTENDANCE

The B. Y. P. U. Sunday evening took definite action in respect to the extension work which has been contemplated for some time. A program for work in nearby churches where the B. Y. P. U. is weak or where one does not exist was adopted. Teams and individual workers will be sent out to assist in organizing and strengthening nearby societies. Volunteers for this work will be called for next Sunday evening.

Mr. Ursus Brock was elected as vice-president to fill the vacancy caused by the resignation of Miss Vivian Stewart. Altho very sorry to lose Miss Stewart, who has served so faithfully, the cabinet is very fortunate in having Mr. Brock to fill this office.

The president appointed a committee to investigate several quarterlies and choose one for B. Y. P. U. use.

There were one hundred and twenty-six present last Sunday evening, in comparison with one hundred and thirteen the Sunday before.

The total membership of last year was one hundred and twenty-seven, in comparison with one hundred and fifty this year.

The financial condition of the society was kept in good condition during the summer months.

Balance on hand, May 18, 1921. \$22.58
Total deposits. 8.85
Total disbursements. 8.20
