Olsen named Oregon High School Principal of the Year

Kris Olsen '83, principal of McMinnville High School, was named Oregon High School Principal of the Year, joining a list of Linfield alumni who are considered some of the best educators.

Olsen was honored for his leadership and for the role he has played in the major improvements made in the district over the past dozen years. Modestly, Olsen credits the teachers around him for the success.

"Many individuals have played a significant role in the development of our school programs and offerings," he said. "It has very little to do with me and a whole lot to do with the teacher-leaders that have made it happen."

As a Linfield education major, Olsen said he learned the importance of history and tradition and implements those lessons in his current role.

"Linfield prepares us all well," he said. "I learned the importance of knowing who came before you and that the traditions have important meaning to the community. Reinforcing that allegiance to the institution is very powerful."

After graduating from Linfield, Olsen earned a doctorate from Oregon State University. He taught middle school and coached in Amity and Woodburn, then served as an assistant principal at Central High School

in Independence. He joined the McMinnville district in 1994 as middle school principal, serving a four-year stint as principal at South Salem High School before returning to McMinnville as principal in 2003.

Under Olsen's leadership, McMinnville High School is thriving. Not only does it boast one of the top graduation rates in the state, the school offers a comprehensive list of electives; its English Language Learners exceed state averages in achievement; and it provides programs in STEM, career pathways and dual credit. In fact, the dual credit program has been number one in the state in total number of college credits earned by graduating seniors, Olsen said.

"The dual credit program is such an economic benefit for students and their families," he added. "Many of our students are entering college with sophomore and junior standing. I'm proud of that."

Olsen joins a list of Linfield educators who have been recognized for their dedication to teaching. Last fall, Michael Lindblad '94 was named Oregon Teacher of the Year; Nathaniel Wight '99 received the Presidential Innovation Award for Environmental Educators; and Tim Love '07 was named Oregon Social Studies Teacher of the Year. In 2011, Cathy Carnahan '73 was named state and national middle school principal of the year.

Support Linfield beyond your lifetime. It's possible, *and it's easy.*

You can leave a meaningful legacy of support for Linfield College by directing a gift from your estate to Linfield's endowment. For example, if you give Linfield \$250 annually, an estate gift of \$5,500 will continue your support of the college long after your lifetime.

Named scholarships and other designated endowment funds may be created with gifts of greater amounts.

A little planning today can make a tremendous difference for tomorrow's students.

If your annual gift to Linfield College is:	Will be sustained with an estate gift of:*
\$250	\$5,500
\$500	\$11,100
\$1,000	\$22,200

*based on a 4.5% endowment payout rate
